

WELCOME TO JYASHAA

We are a small IT development organization based in KATHMANDU, NEPAL. Our mission is to promote small and medium-sized businesses online and work together with startups to develop disruptive technology.

WE ARE HERE FOR YOU

With an aim of creating a comprehensive service for all IT needs. Staying true to the name Jyashaa, work station in Nepal Bhasa, we aim to create a flexible working space, where we tend to all online and offline needs from information technology, web design, graphic design, printing, online marketing and technical support to personalized website development.

We provide tailored service for all corporate needs of varied clients including small scale businesses and large companies.

Information Tech

We have a team of dedicated IT personnel who will be at your service at your beck and call. We prioritize your needs and demands above anything and are concerned about the business. Our team provides their expertise and technical support in the most efficient way. We leave no room for complaints and are open to suggestions.

- Security Installation
- Biometric Attendance
- Network Design and Technical Support
- Hotspot

Web \$ Graphics

Our creative team looks after this department and are very good with their job. Though common, new challenges arise every day and our team is more than ready to handle it. Our services will be according to your needs and we won't hold back with our creative and professional output.

- Web Design
- Responsive Design
- Search Engine Optimization
- Logo Design and Shape to Ideas

Print \$ Marketing

Though a very basic job, it's equally important. What's more, there are so many ways it can go wrong. Whether you want printing in bulk or in small amount, we do it in swiftly, easily, and without any hassle. If not printing, then we deal with printers, providing you with qualitative and price-efficient products.

- Facebook Marketing
- Printing and Branding
- PVC and Brochure

BUSINESS MISSION STATEMENT:

We are here to complete your Journey just in one setup. Our goal is to provide solutions along with satisfaction. Our moto is to build your brand more frequently. We are a professional team of IT experts, creative designers and developers with a decade long industry experience, and eager to work on any challenging projects following strict deadlines.
